COLLEGE COMMENCEMENTS.

CONTINUED FROM EIGHTH PAGE.]

its persistency, its moral dering, deserve admiration and paironage. If you in your own spheres can assist in bringing things of derkness to light, not from the mean spirit of epvy or mainer or because you take pleasure therein, which is internal, but from the awful necessities of righteousness, you will deserve well of your country and be the benefactors of mankind.

In conclusion the speaker urged his hearers to cherical their Alma Mater and to lead Christian lives.

FINANCIAL AND COMMERCIAL

Review of the Stock Market-A Dull Week and Irregular Prices.

DECLINE IN GOLD.

Capital a Drug and Money Essy-The Movement in Railway and Government Bonds-Mining Intelligence.

sted in the ledger of the week. Business in the stock market has been unus showing an indisposition on the part of those whose sapital enables them to give real strength and consistpetween a few local operators. Brokers' offices are comparatively descrited, cierks are idie, expenses are secumulating and the feeling of depression is almost

universal.

So far as speculation is concerned—such as it is—the
principal feature was the strength of the granger
stocks, which were marked up to a point that enabled for their patience. Increased earnings are reported on these lines as the result of a sharp movement of grain, and the "point" has undoubtedly been well stillzed. The compactness of the cliques engaged in manipulat-ing Northwest and St. Paul is the chief secret of their

In other securities, like Western Union, Pacific Mail and Lake Shore, the fluctuations have been more or less suggestive of lacteal tactics, prices acting and re-acting obedient to the whims of the bold players whose will be surely paid by the latter continues to be freely We can obtain no truthful information on at 106 a 108, notwithstanding the unfavorable bulletins daily published concerning the condition of the vener-

The contracts that have been made with this company by shippers to carry freight at present low rates til February and even later, with the privilege of my further reduction that may be made, are regarded as inimical to the test interests of the line, and suggestive of a determination to fight in the pending war the bitter end.

atic course of New Jersey Central, which, after run-ing down to 72%, was met by a statement of President and promise to be a great deal better, whereupon the to 78. Subsequently it further declined, but at the close presented the evidence of a sustaining power by rallying to 75). Delaware and Lackawanna likewise the opinion apparently being treely shared that bottom has not been reached in any of the coal carrying stocks. The Michigan Central party succeeded in putting their lavorite up to 49 and are predicting yet higher agures of a legisimate demand for even the specialties it is difficult to see on what grounds a permanent upward movement can take place at the present time in any ock on the list.

isting situation through the goggles of melancholy, and recommend their iriends to avail themselves of present ow prices, and by buying "along the line" be prepared for an autumn rise. While this sanguine class are not themselves openly setting the example, and are tock indicator, the remoteness of the result makes the small operator, however, is generally too impecunion to wait for large profits or take the chances of a three or five per cent decline against an advance of ten o liteen per cent three months bence. He

The situation of the money market has reflected great case. The supply is abundant, more capital is offering than can be used, and the payment of interest and dividends will largely sugmen the amount on hand. Call loans have ranged from 3 to 1½ per cent. at 4 per cent. The supply of mercantile paper is very small, and nearly all grades are subjected to a close scrutiny. Some names, classed as "gilt-coged," find sale as low as 3½ a 4 per cent, but the leading note

ad the price has fallen from 112% to 111%. The close

was made at 112%. It is estimated that from \$10,000,000 to \$15,000,000 gold have been sold short this week on the prospective July disbursements by the Treasury and the talk about another syndicate taking a large amount of four and a half per cent bonds. There has been a good borrowing demand for cash gold all the

The following shows the value in gold of \$100 green-backs (United States Treasury notes, fractional notes and national bank notes) at twelve o'clock to-day and

EXPORTS AND IMPORTS. The foreign commerce of the week was as follows:— General merchandise imports, including dry goods, \$4,402,551; produce exports, \$6,233,065; specie ex-ports, \$1,763,950.

ports, \$1,753,950.

The total imports of merchandise since January for this year were \$153,310,430, against \$176,747,337 for the corresponding period in 1875, and \$211,153,581

These have been in active demand during the week by institutions and private capitalists. At first they were strong, but later, in sympathy with gold, they declined, which induced still further orders that could not be supplied, owing to the small number of bonds

STATE BONDS.

In the bonds of the Southern States there has been a better demand at firmer figures, though the dealings were the largest in Tennessees and Louisianas. On the latter interest is now being paid. They represent sixty per cent by composition of the original debt of the State. By the amendment of the State constitution, ratified by the people, the whole State debt is limited to \$15,000,000. The old debt is being consolidated at the rate of sixty ner cent, and this \$15,000,000 provision will more than cover the outstanding bonds. The inquiry for Missouri bonds brought the price of plain sizes to 108. The District of Columbia 3 65s were firm, and advanced on the passage of a bill making standing provision for the interest in place of a semi-annual ap-

These maintained steadiness and in some instances, as for instance the lines not involved in the present rivalry for freights, were strong and active. The Pasific issues were higher. Capital is evidently seeking in this class of securities a chance for employment, and good bonds will reap the benefit.

MINING STATISTICS.

Until within a very recent period it has been the common opinion of those who have not acquainted themselves with the statistics of the business that mining for the precious metals is the most bazardous, and, upon the average, the least remunerative of all industrial pursuits. We command to such as still hold to that view the following excerpt from a trustworthy authority. The allowance for expenditures seems to be liberal, while the figures as to the production are

actual and apparently indisputable.

"By careful search among the records of all gold and silver mining companies incorporated in the United States, it has been estimated that about \$600,000,000 have been subscribed toward mining and milling comornia, up to the beginning of 1875. This figure represents the total capital stock and assessments of all companies of which record can be found. About sixty per cent of this figure, or \$360,000,000, was paid in cash; the balance still remains as paper. Now what have been the results? The following will show approximately the whole thing:-

tion as a prout of ten per cent per an-	740,000,000
Total	\$2,438,000,000
Actual capital invested	360,000,000
Labor of 10,000 men at \$4 per day for 25 years.	
Total	\$860,000,000

Total.....\$2,434,000,000 or a little more than \$60,000,000 per year (part of this being permanent improvement), which, upon an investment of \$300,000,000, represents a profit of about sixteen per cent per annum from the date of the dis-

covery of gold in 1849 till 1875."

MAIDEN LANE DIAMONDS.

MRETING OF STRASBURGER & CO.'S CENDITORS In compliance with a circular call a large meeting and St. Louis jewellers, who failed last December with liabilities of nearly \$200,000, was held at ten o'clock 100 of the largest creditors were present or represented. Mr. Morse called the meeting to order and sented. Mr. Morse called the meeting to order and nominated Mr. Dorrance, of the firm of Smillis, Dorrance & Edge, for chairman. Mr. Daniel F. Appleton nominated Joseph Farnoschon secretary. Both being elected the first business in order was the report of the committee of five, which was made by Mr. Morse, the substance of which was that the committee had proceeded promptly, both in the civil and criminal courts, against both members of the nrm, Moses Strasburger and Sansom Rosenblatt, in the courts of New York, St. Louis and San Francisco; had them indicated by the Grand Jury, arrested and impriscourts of New York, St. Louis and San Francisco; had them indicted by the Grand Jury, arrested and imprisoned for several weeks, and now out on bail, waiting trial on the criminal charges. After various propositions from the bankrupts the committee agreed to submit to the creators the following proposition for compromise of the civil suits:—Eleven per cent, secured, in six months; eleven per cent, secured, in six months; eleven per cent, secured, in eighteen months, and \$6.000 in cash. The twenty-two per cent is secured by bond and mortgage of Rosenblatt's father our is real estate in this city, which the committee consider perfectly safe. This settlement will give the creditors about \$70,000 in all to pay about \$180,000, and upwards of \$55,000 more than all the assets of the concern show. This is regarded by the committee as the very best that could over be made out of the concern.

cern.

After a prolonged and free discussion by all the creditors present a vote of thanks was unanimously passed and tendered to the committee of five, and then the report of the committee in layer of accepting the compromise was adopted by a vote of 49 to 18. The meeting then adjourned.

AWAY TO AFRICA.

Mr. Donald Mackenzie and party sailed from Liverpool on Saturday, June 10, for the West Coast of
Africa, their object being to explore and survey the
African Continent to see if it be practicable to admit
the waters of the Atlantic into the Valley of the
Belta, and thus establish water communication with
